

SVH-150 SERIES

Principal Characteristics

- Excellent holographic effects
- Over-printable
- Excellent adhesiveness
- Good workability

Fields of Application

- Tobacco / Cigarette packaging
- Cosmetics and pharmaceuticals packaging
- Food, drink, confectionery label and packaging
- Various packaging in graphics industry

Product Type

- SVH-150A: Standard type
- SVH-150U: Improved over-printability type

Suitable Substrates

- Various paper
- OPP laminated paper

Specification

- Carrier film thickness : 12 μm
- Packaging: 640mm \times 240m \times 5rolls in a box
640mm \times 120m \times 10rolls in a box

Operating Temperatures

- Up and down presses: 110 ~ 140 $^{\circ}\text{C}$
- Cylinder presses: 130 ~ 160 $^{\circ}\text{C}$

Health and Safety

- MSDS of the product is available on request.
