

SVH-620 SERIES

Principal Characteristics

- Easy makeready
- High gloss
- Fine definition
- Excellent workability

Product Type

- SVH-620N: Standard type
- SVH-620D: Improved definition type
- SVH-620K: High-speed workable type
- SVH-620M: Improved adhesion type
- SVH-620Q: Improved thermostable type

Specification

- Carrier film thickness: 12 μ m
- Packaging: 640mm \times 240m \times 5rolls in a box
640mm \times 120m \times 10rolls in a box
